# VAISALA

## Let's talk about the most effective ways to protect what matters most

### WEBINAR

Thursday, September 19  
9am New York / 3pm Paris

[Register now](#)

### Join us

As the wind energy industry pushes farther offshore, unique weather challenges are increasing risks to safety and efficiency. At our upcoming Masterclass, experts from the G+ Global Offshore Wind Health and Safety Organisation and Vaisala will discuss innovative ways to protect crews and assets through every phase of wind farm buildup and maintenance.

### Speakers

**Beate Hildenbrand**  
Head of Americas,

**Derek Tao**

G+ Global Offshore Wind  
Health and Safety  
Organisation

Application Manager,  
Vaisala

**Mikko Nikkanen**  
Head of Maritime,  
Vaisala

## What will we cover?

- Today's weather-related safety challenges, especially compared to the oil and gas sector
- How wind lidar can improve offshore weather awareness
- How greater weather awareness can mitigate risks and ensure safer offshore wind operations
- Future visions for safety improvements, focusing on the importance of reliable weather monitoring for helicopter and vessel operations
